

Turram Yamini Geetha

B.Tech CSE Student | Python & Full Stack Developer | AI Enthusiast

Rajahmundry, AP | 9550654893 | yamini251216@gmail.com | github.com/Yamini1625 | linkedin.com/in/turram-yamini-geetha

OBJECTIVE

Motivated B.Tech CSE student (8.12 CGPA) with hands-on experience in Python development and frontend web development. Passionate about building real-world projects in Full Stack and AI. Seeking an internship to apply skills in Python, JavaScript, and AI-assisted tools and contribute to innovative, product-focused teams.

EDUCATION

Qualification	Institution	Year	Score
B.Tech (CSE)	Aditya College of Engineering and Technology, Rajahmundry, AP	2023–2027	8.12 CGPA
Intermediate (12th)	Board of Intermediate Education	2021–2023	83.8%
SSC (10th)	Board of Secondary Education	2020–2021	98.16%

INTERNSHIP & TRAINING

Python Programming Intern | Anurag IT Solutions, Rajahmundry, AP | May 2025 – June 2025

- Completed hands-on Python programming training covering OOPs and file handling.
- Developed mini-projects including a student record management system and a file-based data processor.
- Practiced writing clean, modular, and well-documented code following industry coding standards.

PROJECTS

Smart Code Reviewer | Python | January 2026

- Developed an AI-assisted Python tool using rule-based analysis to review code snippets for syntax errors, code quality, and best practices.
- Implemented error detection, improvement suggestions, and formatted feedback; built with modular design and clean separation of logic.

Event Management System | Frontend | June 2026

- Built a fully responsive multi-page frontend with event listings, registration forms, dynamic UI interactions, and mobile-friendly layout.
- Focused on clean UI/UX design with cross-browser compatibility; source code available on GitHub.

Portfolio Website | Frontend | June 2026

- Designed a personal portfolio with sections for skills, projects, certifications, and contact using CSS Flexbox and Grid.
- Implemented responsive design across all screen sizes; deployed with semantic HTML and source code on GitHub.
